NATA INTANA ANTIUM.—Bister Arecals, is directores of this charitable institution, has taken initiatory steps towards institution, has taken initiatory steps towards inaugurating a fair for the benefit of the say-ling, to be held in the latter part of April. It is earnessly hoped that all classes of our citizens of every denomination of Christians, will take a lively loteres in this prelieworthy undertaking, for the institution is slike open to all. The kind-bestred and generous ladies, especially—held Protestant and Cutholic—should contribute their united efforts to make the contempiated fair a brilliant success. It would be a beautiful feature to witness—this union of ladies of all denominations in promoting a common charity. The asylum is at present sadiy in want of funds. It has no certain income, but is almost easilvely dependent upon public generosity. Is now contains fifty-four little orphans, of ages ranging from a meeth to five years, many of them children of Protestants.

orphans, of ages ranging from a mesch to five years, many of them children of Protestania.

It is surprising that such a noble obstity as that of St. Ann's Infant, Asylum is permitted to langular in a Christian community for the want of adequate means. How different the status of similar institutions in other cities! It was but the other day that I read an announcement of the grantiyang fact that \$10,000 were realized from a lecture given by Hon. S. S. Cor, in New York, for the benefit of the Founding Hospital in that tity, and that two societies, composed of Casholic and Protestant, indice, had been organized for the purpose of adding Sister Ireas, the directors; in her noble effects—the accistion wising with, each other in their real and energy. Why cannot the good ladies of Washington insight this noble example, and make St. Ann's what it ought to be—a house large exough for all the orphans of tender years who may need shelter from the pittless storms of a cold and unayerpatholing world, and one in which they could be provided with every secasary comfort, under the care of the self-sacrificing sisters who have consecrated thick lives to the cause of sufficing humanity! Let the proposed fair be the beginning of a united and general Could not the 'Ari' Buildings' to account of ar the purpose of holding his fair. It would be the most slights building in the city for such an object, and I am sure the guarrous trastees would grant the use of it for his subject charley.
